Golden Retriever Breeders

Weber's Golden Retrievers owned by Albert & Susan Weber has been active in the love of AKC pure bred golden retrievers for over 27 years. Temperment, health, and conformation have been our highest priority. Our goldens are stocky and densely boned. We are a PA licensed canine breeding kennel located on a country setting in western Pennsylvania. Our current parents and eight generations prior are from champion bloodlines and have their health cleared by the OFA (hips, elbows, heart, eyes), and PennHIP. Our puppies are guaranteed. We sell our golden retriever puppies by written contract. Stud service is also available to cleared females.

Weber's Golden Retrievers are the cutest puppies and all around family companions. Their big brown eyes say "I Love You & I'll love you forever." They are smart, happy puppies that are willing to please. Our goldens always have a smile on their face and their tail is always wagging.
